

JAIN INFOTECH

Trusted IT Infrastructure & Surveillance Solutions Partner

Established: 2017 | **Corporate Profile**

Company Overview

Jain Infotech is a premier supplier and corporate distributor of comprehensive Information Technology accessories, future-ready networking systems, computer peripherals, heavy-duty connectivity cables, precise hardware converters, and premium CCTV/surveillance infrastructure assets.

Since inception in 2017, we have engineered competitive distribution networks tailored for enterprises, value-added resellers, retail partners, and public sectors. We prioritize technology dependability, strategic cost efficiency, and end-to-end partner satisfaction.

Strategic Directives

Our Mission

To deliver premium, enterprise-grade technology hardware and connectivity accessories that empower our clients to architect highly functional, highly secure, and dynamically scalable IT infrastructures.

Our Vision

To stand as the absolute benchmark in high-volume technology distribution through persistent portfolio evolution, localized logistical superiority, and robust B2B alliance strategies.

Core Portfolio & System Capabilities

We supply a meticulously vetted architecture of components divided across three critical corporate segments:

Cables & Connectivity High-bandwidth structured media infrastructure solutions: • HDMI, DisplayPort, & VGA AV cabling • High-throughput USB & Type-C interfaces • Precision protocol media converters	Hardware Peripherals Enterprise endpoints optimizing workplace execution: • Ergonomic input setups (Keyboard/Mouse) • Professional acoustics & communications • Multi-port USB docking & terminal expansion	Networking & CCTV Advanced physical layers and security systems: • Structured copper LAN (Cat6/ Patch cords) • Managed/Unmanaged switches & routing hardware • Baluns, continuous power configurations, and CCTV rigs

Portfolio Mapping Matrix

Product Vertical	Core Offerings	Primary Operational Environments
Cables & Connectivity	HDMI, USB-C, VGA, DP, High-Speed Adapters	AV Boardrooms, Corporate Hubs, Datacenters
Computer Peripherals	Keyboards, Mice, Business Headsets, Expanding Docks	Workstations, Executive Offices, Call Centers
Networking Gear	Solid Copper LAN Cables, Patch Panels, Managed Switches	Enterprise Networks, Server Environments
Surveillance Accessories	SMPS Power Units, Video Baluns, Connectors, Housing Bins	Commercial Security, Municipal CCTV Deployment

Market Sectors & Clients Served

- **IT Dealers & Channel Resellers:** High-volume pipeline operations with swift turnaround commitments.
- **Enterprise Corporate Offices:** Tailored internal communications and endpoint workspace supply.
- **Academic & Public Institutions:** Scalable hardware for learning labs and campus networks.
- **System Integrators:** Complex components aligned perfectly with dynamic project frameworks.

07+ Years

Of Continuous Operational Excellence & Supply Chain Trust.

Value Propositions & Competitive Vectors

Jain Infotech maintains market leadership through four strictly enforced structural attributes:

- **Exhaustive Inventory Scope:** Eliminating mixed-vendor friction by housing extensive IT and surveillance options centrally.
- **Strict Quality Governance:** Stringent verification pipelines ensuring zero out-of-box component failure rates.
- **Aggressive Scaled Pricing:** Optimized partner tier models to preserve stakeholder market margins.
- **Agile Logistics Fleet:** Minimizing deployment turnaround times via strategic distribution points.

Forging Reliable Corporate Connections

Jain Infotech is completely dedicated to providing the high-grade components your business operations demand.
